

Washington Data Availability Matrix (Updated)

Evidence Base Extraction: Section I

This matrix categorizes the data required to test the 20 review-priority indicators (RF-01–RF-20) in Washington State, explicitly separating what was successfully extracted from public sources vs. what requires a Public Records Request (PRR) or internal access.

Data Category	Availability	Source / Notes
Current AFH Roster & Capacity	Public	DSHS ArcGIS Feature Service (extracted).
AFH Growth Trends (2013-2026)	Public (Partial)	DSHS ALTSA / Mancuso presentations. Annual counts reconstructed; new/closed churn requires PRR.
LTC Budget / Spending Growth	Public	OFM / DSHS Biennial Budgets: \$3.8B (2013-15) to \$10.44B enacted (2023-25) to \$13.07B proposed (2025-27, +25.2%). See wa_data_aggregate/WA_LTC_Spending_Biennia.csv .
Enforcement/Complaint Counts (2023-2026)	Public	DSHS RCS Reports Portal (scraped for 3 counties).
Enforcement/Complaint Counts (2020-2022)	Requires PRR	Public portal retains only a rolling ~3-4 year window.
Deficiency Categories (Abuse, Staffing)	Requires PRR	Locked inside unstructured PDFs in the public portal.
Operator Networks (Shared Phone Proxy)	Public	Computed from DSHS roster (72 clusters found).
Beneficial Ownership (42 CFR 455.104)	Requires PRR	True corporate ownership / related-party mapping is not public.
Provider Exclusion Lists	Public	HCA Termination List / LEIE. (Note: joining to facility names yields false positives; requires PRR for licensee legal names).
Medicaid Claims / Billing Data	Strictly Internal	ProviderOne data (hours, max-units, deceased billing) is exempt from public disclosure (HIPAA/PHI).

Recommended Public Records Requests (PRR)

To extend this pilot toward a more complete public-data review-priority system, the following specific requests should be made to DSHS/HCA: 1. **DSHS RCS:** A structured database export of all AFH enforcement actions and complaint investigations (2018-2026), including deficiency category codes (WAC citations). 2. **DSHS ALTSA:** A roster

of all newly issued and revoked AFH licenses per year (2018-2026) to track operator churn. 3. **HCA:** The 42 CFR 455.104 beneficial ownership disclosure dataset for all Medicaid-contracted AFHs.
